- Certificate of Participation in
Finishing School

Fatema Menjarwala

Frontend Developer(React)

PROFESSIONAL SUMMARY

Dynamic Front-end Developer with expertise in React.js, HTML, CSS, and JavaScript, excelling in crafting responsive and visually appealing user interfaces. Adept at leveraging Generative AI for innovative solutions and swiftly mastering new technologies. Committed to optimizing performance and seamless API integration for enhanced user experiences.

PROJECTS

1. Bluely Clone | |

JavaScript | Git | HTML5 | Responsive Web Design

- Developed a responsive online shopping application with product browsing, wishlist functionality, and cart management.
- Implemented CRUD operations for efficient order management and seamless user interaction.
- Designed a responsive UI to enhance shopping experience across various devices.
- Focused on handling item categories and billing operations smoothly.
- Completed the project individually, showcasing self-motivation and a deep understanding of frontend technologies.

2. Quality Cart | |

JavaScript | Git | HTML5

- Collaborated with backend developers to integrate frontend components of QualityCart with server-side logic for managing user data and orders.
- Developed reusable and scalable code for the QualityCart platform using JavaScript and related technologies.
- Implemented responsive UI designs in QualityCart to ensure optimal performance and user experience across various devices and browsers.
- Conducted thorough testing and debugging of QualityCart to ensure application reliability and stability.
- Utilized Git for version control and collaborative development workflows while building QualityCart.
- Implemented auto-slider with animation functionality using JavaScript, enhancing the visual appeal of product displays in QualityCart.
